## Reviewers in 2017

Leslie Dutton

Editor-in-Chief

I thank all those referees who helped assess submissions to *Journal of the Royal Society Interface* (volume 14) in 2017. The editorial team very much appreciates the time and dedication given by academics to the peer review process and to recognize their efforts. We list the names of all reviewers who provided reports last year (unless they have opted out or not responded).

This article is made permanent and citable by its digital object identifier (DOI). We encourage you to quote your contribution in your applications for tenure and grants or other forms of research assessment. Where you have provided it, we have included your ORCID so your contribution can be unambiguously assigned to you.
