GUIDANCE FOR AUTHORS

The Royal Society is an independent scientific academy founded in 1660 and self-governing under Royal Charter. The Society has three roles, as the scientific academy of the United Kingdom, as a learned society, and as a funding body.

Objectives of The Royal Society are to

• recognise excellence in science
• support leading-edge scientific research and its applications
• stimulate international interaction
• further the role of science, engineering and technology in society
• promote the public’s understanding of science
• provide independent authoritative advice on matters relating to science, engineering and technology
• encourage research into the history of science

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialling +44 (0)20 7839 5561, or visit the Society’s Web site (www.royalsoc.ac.uk).
