Sections 29 and 38 of this Act) for an individual for the purposes of research or private study. In particular, the Society permits the making of a single photocopy of an article from this issue (under the control of the Editor and his distinguished Editorial Board).

The Royal Society’s electronic-submission and peer-review service provides interface authors with the facility to submit their papers online. The service allows you to upload files in a reliable and user-friendly way, using a Web-based system. When your paper is received, an immediate acknowledgement is sent that details how you can track your contribution online. Visit www.pubs.rsysoc.ac.uk for further details.

Cover image: Scanning electron microscope image of a poly(urea-formaldehyde) microcapsule (ca 120 micrometers, diameter) used to store and deliver dicyclopiroterinone healing agent to damaged areas in a self-healing polymer. SUBSCRIPTIONS
In 2007: Journal of the Royal Society Interface ISSN 1742-5698 will be published bi-monthly, with six issues a year. Full details of subscriptions may be obtained on request from the Subscription Sales Department, The Royal Society, 6-9 Carlton House Terrace, London SW1Y 5AG. Tel: +44 (0)20 7451 2646; fax +44 (0)20 7976 1837; email: subscriptions@royalsoc.ac.uk. The Royal Society is Registered Charity No 207043.

Copyright © 2006 & 2007 The Royal Society Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any other means, with the prior permission in writing of the publisher, or in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of this Act) for an individual for the purposes of research or private study.

GUIDANCE FOR AUTHORS
Articles
- Articles are contributions up to 8000 words containing original scientific research.
- Articles are reviewed by an expert panel before publication.
- Articles undergo peer review to ensure scientific excellence.
- Articles are available online on receipt.

Reports
- Reports are short, letter-style contributions (up to 2500 words), which are published rapidly. Preliminary and more speculative work of high quality is strongly encouraged.

Both articles and reports should be written for audiences in a wide range of disciplines.

Reviews
- Reviews are articles of the highest quality and aim to be of interest to communities working at the physical sciences-life sciences interface. Reviews cover the latest developments in an area of cross-disciplinary research. They put such research into a broader context and are written in a style that makes them accessible to readers in a wide range of disciplines. Reviews are normally published by invitation; however, we are also keen to receive proposals for prospective articles. Complete literature surveys are not encouraged.

Selection criteria
- The review process will give equal weighting to sciences on both sides of the interface. The criteria for selection are scientific excellence, originality and potential interest to a wide spectrum of scientists. All papers are peer-reviewed to a high standard and published rapidly under the control of the Editor and his distinguished Editorial Board.
