

## Review articles

- Fibrin gels and their clinical and bioengineering applications** 1  
P. A. Janmey, J. P. Winer & J. W. Weisel

## Research articles

- Tuberculosis reinfection rate as a proportion of total infection rate correlates with the logarithm of the incidence rate: a mathematical model** 11  
P. W. Uys, P. D. van Helden & J. W. Hargrove
- Light alters nociceptive effects of magnetic field shielding in mice: intensity and wavelength considerations** 17  
F. S. Prato, D. Desjardins-Holmes, L. D. Keenlside, J. C. McKay, J. A. Robertson & A. W. Thomas
- Dynamic mechanical oscillations during metamorphosis of the monarch butterfly** 29  
A. E. Pelling, P. R. Wilkinson, R. Stringer & J. K. Gimzewski
- Modelling the time-dependent transmission rate for porcine circovirus type 2 (PCV2) in pigs using data from serial transmission experiments** 39  
M. Andraud, B. Grasland, B. Durand, R. Cariolet, A. Jestin, F. Madec, J. S. Pierre & N. Rose
- Control of translation initiation: a model-based analysis from limited experimental data** 51  
R. J. Dimelow & S. J. Wilkinson
- Systematic construction and prediction of the arrangement of the strands of sandwich proteins** 63  
T. S. Papatheodorou & A. S. Fokas
- Odour character differences for enantiomers correlate with molecular flexibility** 75  
J. C. Brookes, A. P. Horsfield & A. M. Stoneham
- Does a 'turbophoretic' effect account for layer concentrations of insects migrating in the stable night-time atmosphere?** 87  
A. M. Reynolds, D. R. Reynolds & J. R. Riley
- The influence of mesoscale porosity on cortical bone anisotropy. Investigations via asymptotic homogenization** 97  
W. J. Parnell & Q. Grimal
- Anomalous diffusion of heterogeneous populations characterized by normal diffusion at the individual level** 111  
S. Hapca, J. W. Crawford & I. M. Young
- ## Reports
- Rare peptide segments are found significantly more often in proto-oncoproteins than control proteins: implications for immunology and oncology** 123  
B. Trost, D. Kanduc & A. Kusalik

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
