Review articles
A comparative analysis of synthetic genetic oscillators 1503
O. Purcell, N. J. Savery, C. S. Grierson & M. di Bernardo

Research articles
Cellular automata and integrodifferential equation models for cell renewal in mosaic tissues 1525
J. M. Bloomfield, J. A. Sherratt, K. J. Painter & C. Landini
Estimation of measles vaccine efficacy and critical vaccination coverage in a highly vaccinated population 1537
M. van Boven, M. Knautsch, J. Wallinga, P. D. O'Neill, O. Wichmann & S. Hahné
Coordination of multiple appendages in drag-based swimming 1545
S. Alben, K. Spears, S. Garth, D. Murphy & J. Yen
Health in financial crises: economic recession and tuberculosis in Central and Eastern Europe 1559
N. Arinaminpathy & C. Dye
Slippery pores: anti-adhesive effect of nanoporous substrates on the beetle attachment system 1571
E. V. Gorb, N. Hosoda, C. Milsch & S. N. Gorb
Buckling of sheared and compressed microfibrils 1581
N. Nadermann, A. Kumar, S. Goyal & C.-Y. Hui
Unsteady motion: escape jumps in planktonic copepods, their kinematics and energetics 1591
T. Karbow, A. Andersen, V. J. Langlois & H. H. Jacobsen
Frequency response of lift control in Drosophila 1603
C. P. Grantzel, B. J. Nelson & S. N. Fry
Differential effects of magnetic pulses on the orientation of naturally migrating birds 1617
R. A. Holland
Spatial dynamics of bar-headed geese migration in the context of H5N1 1627

Reports
A novel route for processing cobalt–chromium–molybdenum orthopaedic alloys 1641
B. Patel, F. Inam, M. Reece, M. Edirisinghe, W. Bonfield, J. Huang & A. Angadji
