Translation and commercialization of regenerative medicines
Organized by Julia Polak, Christopher A. Bravery and Catherine Prescott

Introduction
Translation and commercialization of regenerative medicines  S675
J. Polak, C. A. Bravery & C. Prescott

Articles
Safety paradigm: genetic evaluation of therapeutic grade human embryonic stem cells  S677

Biological characteristics of stem cells from foetal, cord blood and extraembryonic tissues  S689
H. Abdulrazzak, D. Moschidou, G. Jones & P. V. Guillot

Alignment hierarchies: engineering architecture from the nanometre to the micrometre scale  S707

Engineering extracellular matrix through nanotechnology  S717
C. M. Kelleher & J. P. Vacanti

Human endothelial stem/progenitor cells, angiogenic factors and vascular repair  S731
S. M. Watt, A. Athanasioopoulos, A. L. Harris & G. Tsaknakis

Tumorigenicity of pluripotent stem cells: biological insights from molecular imaging  S753
N. G. Kooiman & J. C. Wu

Stroke in atrial fibrillation—hope on the horizon?  S765
S. Jamil-Copley & P. Kanagaratnam

Regenerative medicine: the emergence of an industry  S771
R. M. Neria

Regenerative medicine. Opportunities and challenges: a brief overview  S777
D. J. Polak

Regenerative nanomedicines: an emerging investment prospective?  S783
C. Prescott

Regulating interface science healthcare products: myths and uncertainties  S789
C. A. Bravery
