Electronic subscription details
The Royal Society’s electronic-subscription and peer-review service provides Interface authors with the facility to submit their papers online. The service allows you to upload files in a reliable and user-friendly way, using a Web-based system. When your paper is received, an immediate acknowledgement is sent that details how you can track your contribution online.

visit rsif.royalsocietypublishing.org for further details.

The Royal Society, the national academy of science of the UK and the Commonwealth, is at the cutting edge of science. We support many top young scientists, engineers and technologists, influence science policy, debate scientific issues with the public and much more. We are an independent, charitable body and derive our authoritative status from over 1400 Fellows and Foreign Members.

Our mission: to expand knowledge and further the role of science and engineering in making the world a better place.

The Royal Society’s strategic priorities are to:

invest in future scientific leaders and in innovation,

influence policymaking with the best scientific evidence,

invigorate science and mathematics education,

increase access to the best science internationally, and

inspire an interest in the joy, wonder and excitement of scientific discovery.

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialing +44 (0)20 7839 5561, or visit the Society’s Web site (royalsociety.org).

Cover image: Ostrich (Struthio camelus) wearing reflective markers for three-dimensional motion capture. Ostriches exploit elastic energy storage and release in their dorsal leg joints that reduces the requirement of muscle fibre power, helping to explain their remarkably low energy cost of running. (See pages 740-755, photographs by Iona Rubens.)
